

ATTENTION VILLAGE OF HAMPTON RESIDENTS!

The Village is undertaking a project to promote Hampton on the official Village Website. This project is a combination of still photos and video that will be initiated soon and will last over a few months. Part of the video will be obtained with a drone. While the fear of drones as an invasion of privacy has been identified, a great effort will be to focus on the landscapes and settings that Hampton benefits from. Any identifiable individuals in any captured video or still photo that is determined to be used in the final production will be asked to sign a release. Should you have any questions or concerns please feel free to contact Village Hall at 755-7165 M-F from 8:00am – 5:00 pm.
