Consideration and Approval of a Special Use Permit for the Placement of a Cell Tower for Verizon Wireless at 246 South State Avenue: Shawna Johnson and Laura Halpenny of SBA along with Chris Horn, an independent cell tower engineer were present with updated maps showing coverage from nearby towers and how the new tower would fill a gap in service and also act as a capacity tower to improve performance of service. Discussion and questions about the need for coverage, that the coverage appears to be directed away from Hampton and does not benefit Hampton, and alternate locations for the tower. Trustee Vershaw asked those present from Hampton Woods if the tower was moved across Route 84 to the Village park if that would be OK with them. They unanimously responded it would. Trustee Vershaw proposed that the Village build an access road and area in the park out of the flood plain if SBC would consider moving the tower to the park. They responded they wouldn't due to it being in the flood plain. President Irby stated that if SBC would have approached the Village about a location, we would have helped them select a site before the investment of planning and time. Roll call vote as follows: Vershaw, Hamilton, VanDieren, Garrison, King and Heintz; "Nay". The motion failed 0-6. Representatives from SBC asked why the permit was denied.
